

Previous Years' Crime Statistics and Neighborhood Trends

The following tables are taken from our 2011, 2012, 2013, 2014, and 2015 Annual Security Reports and neighborhood crime statistics for 2016, 2017, and 2018. With changes to the Clery Act, some categories of crimes have been added and expanded, resulting in different categories being included in more recent years. In addition, these data sets are limited by the availability and categorization of crimes by the Seattle Police Department, from whom The Seattle School receives data about neighborhood crimes.

2011 ASR Statistics

The following statistics represent data collected by The Seattle School of Theology & Psychology from reports made to The Seattle School and the Seattle Police Department concerning crimes occurring on campus geography (defined as our building and immediately adjoining public property: sidewalks and streets) in the 2011 calendar year. In addition, we have included statistics for the surrounding Belltown neighborhood which are collected from the [Seattle Police Department website](#).
